Ian Meyer

Seattle, Washington · (316)719-6454 · contact@ianwmeyer.com · ianwmeyer.com · github.com/ianm1837

Full Stack Web Developer offering 10 years of diverse IT experience and web development, DevOps, Linux and Hosting expertise. Driven by a passion for learning, building, and solving complex problems, I am seeking a dynamic developer role where I can leverage my expertise in front-end and back-end technologies.

Relevant Experience

Freelance Engineer, Seattle, WA   2023-Present

- Developed dynamic web applications primarily using React, Next.js and Tailwind
- Collaborated closely with various clients to develop and deliver solutions to unique problems
- Implemented solutions utilizing Docker, Proxmox, AWS, and Cloudflare.
- Gained experience with C++ during development of automotive transmission controller build.

Projects:

- Portfolio Website: Showcased full-stack development skills, with a heavy focus on performance optimization, and TypeScript proficiency.
- Spectral: A privacy-focused, self-hosted messaging application, showcasing skills with GraphQL, WebSockets and MongoDB.
- PiHole Pause: Developed a React-based (next.js) full-stack web application for managing multiple PiHole instances.

Whole Foods Market, Seattle, WA   2017-2023

Sr Technology Support Specialist

- Collaborated with diverse teams, providing technology solutions and support, reflecting strong team working and communication skills
- Developed multiple support tools to automate common tasks with PowerShell.
- Managed and optimized Active Directory and Group Policy.
- Developed and utilized ServiceNow dashboards and reports.
- Led hardware maintenance and IT projects.
- Provided comprehensive end-user support, ensuring excellent technical experiences and demonstrating customer-focused problem-solving.

Education

University of Oregon   2022-2023

Full Stack Web Development Coding Bootcamp
